

**Challenged to a Duel.**  
NEWARK, N. J., Jan. 31.—Major Michael Day, a well known character of Bellville, issued a challenge to-day to Captain John Dooley to meet him in mortal combat. The Major accuses the Captain of being the instigator of certain pungent paragraphs concerning him which have recently appeared in a local Sunday paper. The Major writes: "I am too much of a soldier to allow my wounded character to be healed by dollars." Both men are veterans of the civil war and are well known. The Major is in deadly earnest, while the Captain regards the matter as a joke.

**A RUSTLING ADVANCE AGENT.**  
Sam Thall reached the city last evening by way of Virginia City. He went by sleigh over the Gieger Grade from Reno, leaving yesterday morning at 5 o'clock in company with Tom Merchant and they made the trip in three hours and ten minutes. The roads were very bad and they had several upsets and a few backsets. Of course they beat the toll road man in order to make time.

Mr. Thall is the advance agent of the Grismer-Davies Company who will open here in the "Tigress" on Friday on the 7th. Thall telegraphed Grismer on Friday that he could not reach Carson as the road was blockaded. He received this reply from Salt Lake:

"My agents are not supposed to know such word as fail."

**JOE GRISMER.**  
About this time Thall concluded to hustle and started out over the grade with a sturdy team and sleigh. He was obliged to deposit the full value of the outfit before he could leave the stable. They took shovels along to clear the drifts. One of the horses is now dying in Virginia, the team has collapsed and the sleigh is not now worth ten dollars. They were the first ones over the grade since the storm.

**AUTOMATIC TELEGRAPHY.**—Mr. Johnson, tool-maker at the V. & T. shops, has invented and received a patent on an automatic telegraph instrument for beginners, and is to be used as a self-instructor. It consists of a copper plate with the dots and dashes of the respective characters used in telegraphy raised on it at regular intervals, and the sounds are made by a small brass finger going over them and making the connection with the electric current as the finger passes over each successive dot or dash. By moving the metal finger at random over the letters, it gives the operator an opportunity to test his or her ability to distinguish the letters by sound, and thus gets splendid practice at receiving. The instrument is on exhibition at Geo. Thaxter's store.

**PERISHED ON THE DESERT.**—George Millard arrived at Campo from Indian Wells Friday, and reports finding three skeletons on the desert. In one place he saw the skeletons of two men lying a few yards apart. They had evidently been companions. Lying on the sand a short distance away, grotesquely distorted, was another skeleton. A perfect skeleton of a horse was also found. A search about the men's skeletons resulted in the finding a silver badge with E. W. T. on one side, and Nevada Guards No. 2, on the other.

**THE BLOCKADE.**—Reno is now anxiously awaiting a chance to connect with Carson. The V. & T. management hope to reach Reno today and have an army of shovellers at work at the lower end of the road, but they made slow progress yesterday and there is no certainty that connection will be made today. There are tons of mail and express matter lying there awaiting shipment, to say nothing of the long string of freight. People will have to pack their mail from the Post-office in gunny sacks when it arrives.

A San Francisco dispatch says that Dempsey will never be able to enter the ring again, as he has collapsed with consumption.
